Need more consistent opportunities to deliver workshops

Need equal opportunity for staff

Processes at Reach aren't always consistent

Development is very self-directed

I'd like more guidance on skill gaps

Enjoys the training and exposure to different trainers

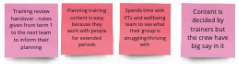
I'd like training every week

I'd like more resources to help with training

Accreditation and processes in Reach feel biased

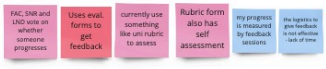
The expectations around accreditation aren't clear

It's easy for us to plan training content



I feel supported in my training

We use forms to deliver feedback and assess performance



It's difficult to get feedback

Road to FAC is long & frustrating

Training groups aren't catered to my skill level

I don't feel recognized outside of Reach

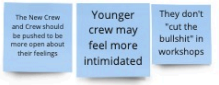
We're losing our FACs because of processes and inconsistent work

Soloing workshops is exciting

People don't feel comfortable soloing workshops

We need more experienced facilitators

NC not comfortable with opening up on feelings



Crew motivation levels are not aligned

Reach is changing for the better

Running online workshops isn't ideal

I think the 2022 goal is achievable

I don't think the 2022 goal is achievable
